

## Helping to preserve the Future of the Call/Volunteer Fire and EMT services in the Commonwealth

Since 1990, the Massachusetts Call Volunteer Firefighters' Association (MCVFA) has strived to provide programming, training and resources for its members and community. The MCVFA relies heavily on the support of its members through dues, but dues are not enough to continue the programs we all enjoy presently. Now more than ever, we need your help.

The **MCVFA Fund, Inc.** is a program established by the MCVFA to receive and manage donations needed to offset expenses and support programs that membership dues alone can't cover. The **MCVFA Fund, Inc.**, a member organization and a **501(c)(3)**, was created to support the MCVFA in their efforts to provide information, education and training for the call/volunteer fire and EMS services throughout the state. We really need your assistance and commitment with supporting the longevity of our programs through efforts to provide information, education and training for the call/volunteer fire and EMT service throughout the Commonwealth. Donations of all sizes truly benefit our members and the communities they serve by providing funding for scholarships, fire prevention education and life safety, raising firefighter and EMT awareness on health and wellness issues, training and education and to assist with the recruitment and retention of call and volunteer firefighters and emergency medical technicians. Your support makes the difference between opportunity and limitations.

[Hindley Scholarship](#)

[Recruitment and Retention](#)

[Health & Wellness](#)

As part of the fundraising initiative, you have the option to designate your donation to support a specific program of your choice:

### [Health & Wellness](#)

In an effort to bring attention to the critical issue of health and wellness for first responders, the MCVFA promotes issues related to cancer, heart health and general wellness.

### [Fire Prevention Education](#)

The MCVFA assists in procuring and improving resources and programs for member departments providing fire prevention education in their communities.

### [Training](#)

The MCVFA works to develop, plan and promote fire and emergency medical service workshops for its members. These workshops are continually being evaluated and updated to ensure that the MCVFA presents the most relevant and up to date information.

### [Recruitment & Retention](#)

The MCVFA assists member departments to devise means of attracting and retaining call/volunteer emergency personnel through media advertising to get the message to the general public that their help is needed in their respective communities.

### [Robert J. Hindley Scholarship Fund](#)

Every year since 1997, MCVFA members or immediate family members currently pursuing or planning to pursue undergraduate or graduate studies, vocational training, a certification program or job skills training have been awarded a Hindley Scholarship to continue their post-secondary education at a college or an accredited institution of their choice. Your donation supports the continuation of this program.
